

TRUMA AVENTA COMFORT 2A GEN ROOFTOP AIR CONDITIONER 2500W

Reference: 019 AV44092.51

TRUMA AVENTA COMFORT 2nd Gen Roof-Mounted Air Conditioner 2500W

The TRUMA AVENTA COMFORT is an all-season roof-mounted air conditioner capable of generating both warm and cool air, with a cooling capacity of 2500W and a heating capacity of 2000W.

With a total weight of just 28,7 kg, it is the lightest roof-mounted air conditioner in its power class. Its high efficiency, combined with its lightweight design, makes it an ideal solution for those seeking high performance and ease of use.

Operation is extremely quiet, thanks to the compressor and the continuously variable fan.

The integrated heat pump also allows the air conditioner to be used for heating.

Its low starting current enables use even at campsites with limited amperage, ensuring reliable startup.

It is particularly suitable for vehicles 7 meters or longer.

It does not come with the [air diffuser](#), which can be purchased separately.
