

GENSET MG 9010 DM - VEHICULAR GENERATOR 10.3 KVA

Reference: MG 9010 DM

GENSET MG9010DM VEHICULAR GENERATOR STAGEV 10.3KVA

The GENSET MG9010DM StageV is a compact, lightweight, and silent vehicular generator, specifically designed for installation on special vehicles, including workshop trucks, motorhomes, trucks, caravans, and Civil Protection rescue vehicles.

This GENSET MG9010DM StageV represents an ideal solution for those who need a reliable power source during mobile operations, thanks to its advanced technical features and compliance with the latest regulations.

Equipped with a Kubota D 722 engine running at 3000 RPM, the GENSET MG9010DM complies with StageV emission regulations, ensuring reduced environmental impact and optimal energy efficiency. This vehicular generator set provides a maximum single-phase power of 10.3 kVA (8.24 kW), making it perfect for powering a wide range of electrical devices on the move.

Main Features of the GENSET MG9010DM Vehicular Generator StageV:

Engine: Kubota D 722, diesel, with 3 cylinders and a power output of 17 HP (12.5 kWm).

Emission Regulations: Stage V, ensuring compliance with the strictest European emission standards.

Acoustic Power: 87 Lwa, with a sound pressure of 62 dB at 7 meters, guaranteeing quiet operation.

Dimensions: Compact, with a length of 1010 mm, a width of 550 mm, and a height of 560 mm.

Weight: 220 kg dry, facilitating integration into vehicles without compromising stability or performance.

Fuel Consumption: 3.3 Lt/h at 75% load, optimizing the balance between autonomy and consumption.

The GENSET MG9010DM StageV is particularly suited for applications on vehicles that require stable and continuous electrical power in situations where mobility is essential. It is an excellent choice for mobile workshop trucks, campers, and emergency vehicles, where the safety and reliability of the electrical supply are crucial.

Advantages of the GENSET MG9010DM StageV:

Reliability and Durability: Thanks to the Kubota engine and robust construction, the GENSET MG9010DM delivers high performance even in challenging operating conditions.

Ease of Installation: The compact dimensions and reduced weight facilitate the generator's integration into various types of vehicles.

Low Environmental Impact: Compliance with Stage V regulations, ensuring reduced emissions and contributing to environmental protection.

Quiet Operation: The low sound pressure makes this generator set suitable for use in noise-sensitive areas, such as residential zones or during night operations.

The GENSET MG9010DM Vehicular Generator is the ideal choice for those seeking a generator that combines power, efficiency, and environmental respect. Perfect for a wide range of mobile applications, the GENSET MG9010DM StageV stands out as a leading product in its sector.

Technical Sheet

Phase	Single phase
Maximum power single phase (KW)	8.24
Maximum power single phase (KVA)	10.3
Fuel	Diesel
Frequency (Hz)	50
Voltage (V)	230
Engine	KUBOTA D722, 4 stroke
Emissions Regulations	Stage 5
Engine rpm (rpm)	3000
Starting system	Electric
Engine capacity (cm ³)	719
Number cylinders	3
Cooling	Air
Alternator	Synchronous
Protection degree	IP23
Motor insulation class	H
Consumption (L/h)	3.3
Acoustic power	87 dB(A)
Acoustic pressure	62 dB(A) at 7 m
Length (mm)	1010
Width (mm)	550
Height (mm)	560

Dry weight (Kg)	220
Silenced	Yes
Super silenced	Yes
Product type	Generator
ATS Switch device	No ATS
Voltage regulator	No
Engine manufacturer	Kubota
