

VTE PAGURO 6000 Marine Generator 6 kVA 50 Hz

Reference: AP06023050S0

Paguro6000 Marine Generator VTE 50 Hz super-silent 6 KVA

PAGURO6000 GENERATOR MARINE VTE 50 Hz 6 KVA is a single-phase 6 KVA Paguro6000, with a Lombardini engine powered by diesel at 3000 rpm and water-cooled with a stainless steel water/air heat exchanger.

All parts in contact with seawater are made of 316 L stainless steel.

Thanks to the water-cooling and the double anti-vibration system, vibrations are reduced to a minimum, making the VTE PAGURO6000 50 Hz Generator supersilenced and among the lowest noise emission marine generators in its class.

The compact and space-saving VTE PAGURO6000 50 Hz Generator is suitable for use on small boats, ready to give you all the power you need in peace.

The remote control consists of:

- Remote control with LCD display.
- Counter, load indicator, engine frequency/speed.
- Automatic shutdown for low oil pressure and/or over-temperature.
- Quick connector and 15 metres of cable.
- Automatic start.

Engine

The Lombardini engine of the VTE PAGURO6000 50 Hz 6 KVA diesel-powered marine generator makes it efficient and reliable. Designed with a stainless steel water/air heat exchanger. Small and compact the Paguro6000 is excellent for small boats, but great reliability.

Alternator

The alternator is synchronous, brushless and with class H insulation. The capacitor regulation makes the PAGURO6000 50 Hz 6 KVA Marine Generator excellent for powering sensitive electronic devices that fear voltage and current fluctuations. It is also water-cooled via an AISI 316 L stainless steel heat exchanger.

Soundproofing capsule and double anti-vibration system

The reinforced fibreglass capsule with composite layering and high-density soundproofing material coating make this Paguro6000 marine generator one of the most silent compared to its competitors. The pod allows installation even in narrow spaces, thanks to its composition: two upper parts and one lower part. The double anti-vibration system, internal with 4 soft mounts and external with 4 semi-elastic mounts, finally makes it stable even in less calm waters and silenced, so you can enjoy sailing without further worries.

Paguro6000 Marine Generator

Fuel: Diesel Engine speed (rpm): 3000

Phase type: Single-phase
 Single-phase continuous power (KVA): 6
 Frequency (Hz): 50
 Voltage (V): 230
 Engine: Lombardini LDW502
 Starter: Electric
 Silenced: Supersilenced 53 dB(A)
 Cooling: Fresh water with heat exchanger
 Dry weight (Kg): 130
 Length (mm): 660
 Width (mm): 460
 Height (mm): 570

In addition to the VTE PAGURO6000 50 Hz super-silenced 6 KVA marine generator you can find the complete range: click [HERE](#).
 This range of marine generators from VTE are a market benchmark for the optimal ratio of performance, silence and small size.

Technical Sheet

Phase	Single phase
Continuous power single phase (KW)	5
Continuous power single phase (KVA)	6
Fuel	Diesel
Frequency (Hz)	50
Voltage (V)	230
Engine	Lombardini LDW502
Engine rpm (rpm)	3000
Starting system	Elettrico
Number cylinders	2
Cooling	Fresh water with heat exchanger
Alternator	Synchronous, brushless
Consumption (L/h)	0.35
Acoustic pressure	52 dB(A)
Length (mm)	660
Width (mm)	460
Height (mm)	600
Dry weight (Kg)	130
Silenced	Yes
Super silenced	Yes
Product type	Generator
Engine manufacturer	LOMBARDINI
