

## VTE PAGURO 6000 Marine Generator 6.5 kVA 60 Hz EPA

Reference: AP06011560S0

### PAGURO6000 super-silenced 6.5 KVA marine genset EPA

PAGURO6000 Marine Genset 60 Hz supersilenced 6.5 KVA is a single-phase 6.5 KVA marine genset, with a Lombardini diesel-powered 3600 rpm engine and water-cooled with stainless steel water/air heat exchanger.

All parts in contact with seawater are made of 316 L stainless steel.

The VTE PAGURO6000 60Hz super-silenced marine genset is among the quietest in its class, and thanks to its water cooling and double anti-vibration system, vibrations and noise emissions are reduced to a minimum.

The compact, manoeuvrable and space-saving VTE PAGURO6000 60 Hz marine genset is ideal for use on small boats, with easy operation it is ready to give you all the power you need in peace. The PAGURO6000 marine genset has a voltage of 115 V and a frequency of 60 Hz and is therefore perfect for operation in other countries with this type of frequency.

#### Technical characteristics VTE Paguro6000 60hz

Fuel: Diesel

Rpm: 3000

Phase: Single Phase

Continuous single phase output (kVA): 6.5

Frequency (Hz): 60

Voltage (V): 115

Engine: Lombardini LDW502

Starting system: Electric

Noise level: Supersilenced 53 dB(A)

Cooling system: Fresh water with heat exchanger

Dry weight (Kg): 130

Length (mm): 660

Width (mm): 460

Height (mm): 600

#### Motor

The PAGURO6000 has a Lombardini diesel-powered engine that makes the marine genset efficient and reliable. Designed with a stainless steel water/air heat exchanger.

#### Alternator

The PAGURO6000's alternator is synchronous, brushless and with class H insulation. The capacitor regulation makes the voltage stable without voltage fluctuations and makes the PAGURO6000 generator set perfect for powering sensitive electronic devices that fear voltage and current fluctuations.

It is also water-cooled via an AISI 316 L stainless steel heat exchanger.

#### Soundproofing capsule and double anti-vibration system

The reinforced fibreglass capsule with composite layering and high-density soundproofing material coating make this marine

genset one of the most silent compared to its competitors.

The pod allows installation even in the smallest and narrowest places, thanks to its composition: two upper parts and one lower part.

Finally, the dual anti-vibration system, internal with 4 soft mounts and external with 4 semi-elastic mounts, makes the PAGURO6000 stable and silenced even in the most difficult navigation, so you can enjoy your navigation without additional worries.

## Technical Sheet

Phase	Single phase
Continuous power single phase (KW)	5.5
Continuous power single phase (KVA)	6.5
Fuel	Diesel
Frequency (Hz)	60
Voltage (V)	115
Engine	Lombardini LDW502
Engine rpm (rpm)	3600
Starting system	Elettrico
Number cylinders	2
Cooling	Fresh water with heat exchanger
Alternator	Synchronous, brushless
Consumption (L/h)	0.35
Acoustic pressure	52 dB(A) at 7 m
Length (mm)	660
Width (mm)	460
Height (mm)	600
Dry weight (Kg)	130
Silenced	Yes
Super silenced	Yes
Product type	Generator
Engine manufacturer	LOMBARDINI
Approvals	EPA
