TELAIR ENERGY 4010D GENERATOR WITH MANUAL CONTROL PANEL

TELAIR ENERGY 4010D vehicular generator with manual control panel 3,4 KW is a new generation single-phase 230 V single-phase **supersilenced** generator, powered by a Hatz diesel engine with very low fuel consumption.

It can be installed by connecting directly to the diesel vehicle's fuel tank, thus eliminating any auxiliary tanks. The TELAIR ENERGY 4010D is built with a metal container with double soundproofing that considerably reduces the acoustic emissions. It can be provided with a completely automatic electronic starting system with a remote control panel with 5 meters of cable equipped with: total and partial hours counter, engine temperature, oil and gas oil level control lights.

The TELAIR ENERGY 4010D also has a built-in 12 V / 10 A battery charger. Removable bottom drawer for easy maintenance of the TELAIR ENERGY 4010D vehicular generator.

The TELAIR ENERGY 4010D 3.4 KW has a design capable of integrating perfectly on any type of motorhome both in its external shape, and with every detail of the interior decoration. A continuous technical innovation resulting from a long experience, renewed and projected into the future by the enthusiasm, imagination and skills of a team of young designers. A choice of materials made according to strict tests and quality controls to ensure aesthetic durability and longevity of the vehicular generator TELAIR.
