

PUMP BINDA VERTI OIL 1-95

Reference: VOIL195

PUMP BINDA VERTI OIL 1-95

PUMP BINDA VERTI OIL 1-95 is a self-priming, single-acting pneumatic piston pump. It is designed for pumping oils, greases and other thick fluids.

The pump is made of strong and durable material, and is equipped with a stainless steel piston. The pump body is made of galvanized steel, while the handle is made of wood.

The pump is easy to use and clean. To use it, simply connect the suction hose to the fluid tank and the delivery hose to the device to be fed. Then, you need to operate the pump manually.

The BINDA VERTI OIL 1-95 is an ideal solution for a variety of applications, including:

Oil change

Lubrication of machinery

Removal of waste oil

Oil transfer

Technical Specifications BINDA VERTI OIL PUMP 1-95

Diameter: 1" F (in) - 1/2" M (out)

Ratio: 1:1

Liters: 200

Maximum flow rate (Lt/min): 22

Weight: 6.4 Kg

Sturdy and durable

Easy to use and clean

Suitable for a variety of applications

The BINDA VERTI OIL 1-95 is an ideal solution for companies that need a reliable and durable pump for pumping oils, greases and

other thick fluids.

The pump is made of high-quality materials, including a stainless steel piston and a galvanized steel body. This combination of materials ensures a long service life and resistance to chemicals.

The pump is equipped with a self-priming system, which allows it to pump fluids even from empty or partially empty containers.

The pump is easy to operate and clean. To use it, simply connect the suction and discharge hoses and then operate the pump manually.

The BINDA VERTI OIL 1-95 is an investment that will save you money and time.
