BM2 TRANSPORTABLE TANK IN POLYETHYLENE FOR DIESEL FT 440

Reference: 99AM032

BM2 Transportable Polyethylene Tank for Diesel FT 440

The transportable polyethylene tank for diesel FT 440 is an innovative and versatile solution for the safe transportation of diesel. Designed to meet the needs of industry professionals, it offers a unique combination of compactness, strength, and lightness.

Technical Specifications

- Tank Capacity: 440 liters
- Length: 1200 mm
- Width: 700 mm
- Height: 800 mm
- Weight: 55.5 kg

Main Features

- ADR Compliance: The tank complies with the 1.1.3.1c ADR regulation, ensuring the transportation of diesel in full exemption.
- Material: Made of polyethylene, the tank provides a compact and durable structure while maintaining significant lightness.
- Variable Capacity: 440 liters.
- Level Indicator: Equipped with a level indicator for precise content monitoring.
- Filling Cap: Fitted with a vented filling cap for easy and safe filling operations.
- Lockable Lid: The lid is equipped with a lock to ensure maximum security during transportation.
- Anchor Strap Housing: Designed with dedicated housings for anchor straps, ensuring stability during transport.
- Lifting Points: Equipped with lifting points for handling the tank at full load with forks, facilitating movement even when fully loaded.

Usage

The FT 440 tank is ideal for diesel transportation operations in various sectors, including agriculture, construction, and logistics. Its robust construction and advanced safety features make it the perfect choice for those seeking reliability and practicality.

With the FT 440 transportable polyethylene tank for diesel, you can be sure of having
