

BM2 INFRARED MOBILE SPACE HEATER IK 2.0

Reference: 06RR22

Powered by electricity like EK models. These have no moving air because heating is generated by radiation. Ideal for localized and precise heating.

- Can be used both outdoors and indoors; IK: IP65 protection
- Immediate and targeted heating
- Energy saving as there is no pre-heating phase
- No air movement, therefore no dust
- No smell or noise
- Power cord (2 m) with plug
- Supplied with wall bracket and two axial rotating rod for a better orientation possibility

The images are purely indicative.

Technical Sheet

Phase	Single phase
Frequency (Hz)	50
Voltage (V)	230
Rated heat power	2 KW - 1720 Kcal/h - 6825 BTU/h
Heat efficiency (%)	100
Length (mm)	100
Width (mm)	670
Height (mm)	125
Dry weight (Kg)	2.2
