HONDA FG320 COMPACT TILLER 163CC

The Honda FG320 Compact Tiller FG320 163 cc.

The Honda FG320 Compact Tiller is an efficient and reliable machine designed to deliver optimal performance for both small flower beds and large gardens.

Thanks to its compact yet powerful design, this rotary tiller is the ideal choice for those who consider gardening a true passion.

Equipped with a Honda 160 cc engine, the Honda FG320 Compact Tiller offers remarkable power to tackle any type of terrain. Its high-efficiency, lightweight yet durable blades ensure professional-grade work, allowing you to dig and turn the soil with ease and precision.

The quality of the finish is outstanding, thanks to the 4-stroke OHC engine, transmission group, and robust clutch that direct power into the depth, guaranteeing impeccable results every time you use it. The transmission provides optimal and powerful traction, allowing you to adjust the advancement according to the performance of the tiller, for total control during work.

The Honda FG320 Compact Tiller offers a wide range of features and technical specifications that make it a versatile and practical option for any gardener:

- Maximum working width of 800 mm and maximum working depth of 325 mm, allowing you to cover large areas in a short time.
- Front transfer wheels for greater maneuverability and control.
- Available side discs for greater precision during work.
- Height adjustment handle and adjustable grip for optimal comfort during use.
- GP160 engine with a displacement of 163 cc, delivering a net power of 3.4 kW at 3,600 rpm and a net torque of 10.3 Nm at 2,500 rpm, ensuring reliable and durable performance.
- Recoil start for easy operation.
- Manual transmission clutch with belt tension for precise speed control.
- Constant gear transmission with chain final drive for increased durability and resistance over time.

The dimensions of the Honda FG320 Compact Tiller are 1,500 x 837 x 980 mm, with a dry weight of 53 kg, making it easily transportable and manageable during use.

Furthermore, the sound pressure level at the operator's ear is 84 dB(A)+, ensuring a comfortable working environment, while vibrations are kept at a low level of 7 m/sec², reducing fatigue during prolonged work sessions.

In conclusion, the Honda FG320 Compact Tiller is the perfect choice for those seeking an efficient, reliable, and high-

quality rotary tiller to meet the needs of professional or amateur gardening.
With its combination of power, precision, and comfort, this rotary tiller will allow you to achieve impeccable results in every gardening task you undertake.
