TELECO TELAIR TELEPLUS 3G

Reference: 20613

TELECO TELAIR TELEPLUS3G Directional Antenna

The TELECO TELAIR Teleplus3G Directional Antenna represents the ideal solution for those seeking a high-precision directional antenna with excellent performance in receiving terrestrial digital signals, even in areas with weak signals. Thanks to its advanced technology and adjustable gain up to 36 dB, this TELECO TELAIR Teleplus3G antenna ensures an uncompromising TV viewing experience.

Main features of the TELECO TELAIR Teleplus3G:

Exceptional performance: With a maximum gain of 36 dB in UHF, the TELECO Teleplus3G guarantees optimal reception even of the weakest signals. It is perfect for remote areas or locations with transmission obstacles.

High directionality: As a directional antenna, it effectively suppresses interfering signals, improving transmission quality.

High-quality materials: The pole mount is made of zamak, a durable material ensuring stability and longevity even in harsh weather conditions.

Energy compatibility: The TELECO Teleplus3G operates on 12/24 Volt power, making it perfect for use on motorhomes, caravans, and boats.

Integrated LTE filter: Equipped with an LTE suppressor filter, it eliminates interference caused by 4G/5G smartphones operating in the 700-800 MHz bands (where applicable).

Technical specifications of the TELECO TELAIR Teleplus3G:

Adjustable gain:

UHF: 36 dB

VHF-B3: 22 dB

VHF-BI: 20 dB

Pole mount: Ø 30 mm with robust fixing.

Recommended accessory: SF165 telescopic pole (available as an optional).

TELECO TELAIR Teleplus3G Kit Contents:

Directional UHF - VHF (B3) antenna for receiving terrestrial digital signals.

Adjustable amplifier with:

3 TV outputs

1 DAB/FM Radio output

5-meter coaxial cable.

Applications of the TELECO TELAIR Teleplus3G:

The TELECO antenna, manufactured with the quality and reliability of TELECO and TELAIR products, is particularly suitable for:

Motorhomes and caravans, thanks to its compatibility with 12/24 Volt systems.

Urban environments with LTE or 5G signal interference.

Holiday homes and residences in areas with weak or disturbed signals.

By choosing the TELECO TELAIR Teleplus3G, you opt for a cutting-edge product that combines advanced features and superior materials. Its capability as a high-level directional antenna makes it an essential choice for those seeking reliability, performance, and quality in terrestrial digital signal reception.
