GREEN POWER GP220S/D SOUNDPROOF (AUTOMATIC CONTROL UNIT)

Introducing the GREEN POWER GP220S/D with soundproof design, crafted to provide a noise-reduced operational experience. Equipped with an automatic control unit, this model ensures efficient power management with minimal manual intervention. Embodying GREEN POWER's commitment to innovation and user convenience, this product delivers both performance and peace of mind in noise-sensitive environments. The GREEN POWER 1500 rpm generators are designed for versatile use, from construction sites to industry, from agriculture to civil protection.

Robust welded steel frames with built-in tank of variable capacity produced by Green Power, engines and alternators supplied by the most important manufacturers in the sector and cutting-edge control units are the elements to ensure generators of excellent quality.

The hoods are made of steel, which allows them to be used in tropical environments. The Green Power covers guarantee maximum accessibility for maintenance and cleaning operations.

Green Power's strong point is the design and implementation within the company, a feature that helps to reduce the time to market of the product and allows any customization.
