

# TELWIN ENERGY 650 START 230-400V 12-24V

## Product description:

TELWIN ENERGY650 START CHARGER 230-400V 12-24V 2,5KW

Telwin Energy650 Start is a battery charger and starter with a power of 2,5KW for charging free electrolyte (WET) and lead acid (START&STOP) batteries with a voltage of 12/24V.

The **2,5KW battery charger** Telwin Energy650 allows the quick start of all types of cars, vans, light trucks, construction equipment and trucks.

The Telwin charger gives the possibility to select **3 modes: normal, quick (BOOST) and finally quick start**, according to the user's need.

Telwin Energy650 is equipped with fast charging timer. Equipped with protection systems both against overloads and for polarity reversals. Equipped with display for current charge. Equipped with remote control.

Telwin Energy650 is a 2,5KW battery charger with high performance and comfortable both in transport and use thanks to the handle and wheels that make it handy and easy to move. Ideal for both the demanding hobbyist and the professional, being a versatile, high performance and reliable product. The Telwin Energy650 charger has a voltage of 12/24V and its maximum output current is 1000A and the charging power is 2,5KW. It has a maximum capacity of 1200Ah, its dimensions are 365x460x755mm while its weight is 38kg. Standard is equipped with two clamps, one mass and one positive and a remote control. TECHNICAL CHARACTERISTICS OF THE BATTERY CHARGER 2,5KW TELWIN ENERGY650 START Phase Type: Single Phase/Three-Phase

Three-Phase Mains Voltage: 230 V/ 400V

Frequency: 50 / 60 Hz

Charging Power: 2,5KW

Exit Power: 20 KW

Charging Voltage: 12 / 24 V

Effective Current: 100 A

Current EN60335-2-29: 80 A

Current Adv. 1v/c EN60335-2-29: 640 A

Maximum initial current: 1000 A

Min.ref. capacity: 20 Ah

Max. ref. capacity: 1200 / 800 Ah

Adjustment positions: 5

Length: 36.5 cm

Width: 46 cm

Height: 75.5 cm

Weight: 38 Kg Are you looking for a product with different characteristics? [HERE](#) you can find the entire range **TELWIN** and other specialized brands.

#### **Product features:**

Phase: Single phase / Three phase

Frequency (Hz): 50 / 60

Voltage (V): 230 / 400

Power (W): 10000

Effective current (A): 90

Adjustment positions: 5

Charging voltage (V): 12 / 24

Length (mm): 365

Width (mm): 460

Height (mm): 755

Dry weight (Kg): 38

Overload protectors: Yes
