

LARIUS - Ugello airless Top Spraying Clean varie misure

Product price:

130,00 € tax excluded

Product description:

Airless Top Spraying Clean nozzle, compatible with all Airless guns, with diameter and spray angle of your choice, without any surcharge.

To see the available sizes see the diagram in description.

The Airless Paint Spray Nozzles are suitable for use with the Air Mixing Spray Mist Clean Base. The working pressure on the high pressure spray gun, and the abrasive materials over time wear out the spray nozzle for painting, reducing the width of the spray pattern and requiring more passes to finish the job with more time and paint wasted.

Immediate replacement of the worn high-pressure spray nozzle is recommended as it may exceed the maximum flow rate of your professional airless sprayer.

Compatible with all Airless guns.

Product features:

Diameter (Ø): da 0.007" a 0.031" (0,1778 mm a 0,07874 mm)

Product type: ugelli
