

DOMETIC COOLMATIC RHD 50 Built-in compressor refrigerator 12/24 V DC

Product description:

The RHD Series is made to measure compressor cooling for three strong brands and developed by specialists. The ColdMachine CS IV compressor cooling unit offers a cost-efficient way of converting the storage in the Iveco Stralis into a fridge. The CoolMatic CS MPS compressor cooler fits into the drawer by the driver's bed in Mercedes Actros 2 and 3 and the CoolMatic RHD 50 is for the VOLVO FH.

A 50 l compressor refrigerator for permanent fitting in a Volvo FH.

Made for Volvo FH

The Dometic CoolMatic RHD 50 is specifically designed for Volvo FH trucks – making them a perfect fit for each other! Efficient energy consumption is possible thanks to a thermostat which allows users to vary the temperature between +10 °C and 0 °C. The secure door has a magnetic seal and safely recessed opening grip. The 50 l capacity is more than sufficient to store food and drinks. For permanent fitting.
