

DOMETIC COOLFREEZE CFX 35W Portable compressor cooler and freezer

Product description:

Specifically designed to fit all kinds of vehicles, the CFX Series is a range of compact portable compressor fridges and/or freezers to keep food and drinks well chilled or even frozen while out on the road. The range includes a variety of models including an ultra-compact cooler and one with two separate temperature zones for simultaneous cooling and freezing.

A powerful and uncompromising compressor cooler with special CFX electronics. Energy-saving and quiet operation.

LED light

Energy efficient LED interior light.

Easy to carry

Space-saving folding and detachable carrying handles.

Robust

Heavy-duty design with reinforced corners and a robust closing mechanism.

USB port

USB port for charging small electronic devices.

Efficient deep-freezing

Sensational deep-freeze performance down to -7°F with minimal energy consumption.

WiFi App

Temperature control via WiFi App.

Beyond cool

The Dometic CoolFreeze CFX has some seriously impressive features. Firstly, there's the CFX Special Electronics which include an intelligent automatic turbo cooler and memory function. Then not only is it suitable for deep freezing down to -22°C but it can also operate on solar power. Plus, regardless of the outside temperature, this cooler will provide a first class, superbly quiet cooling performance. You can take this amazing cooler and freezer wherever you go! Fitted with heavy-duty details like reinforced corners, stainless steel hinges and a robust lid lining, the hi tech coolers in the CFX series can withstand the most demanding of loads. The CFX 35W to CFX 100W models give you the convenient option of controlling and monitoring the cooling temperature by WiFi app.

Tested in the most extreme weather conditions!

The Dometic CFX powered cooler has excellent cooling performance in high ambient temperatures. We know this because its tested in the harsh conditions and extreme heat of the Australian desert! Its rugged, efficient, and ready for action. The CFX is our most awarded product and you'll quickly understand why.

Where does the CFX get its immense power?

Compressor cooling technology, used in Dometic's CFX series, offers unrivalled cooling power. But how does it work? Well, it relies on a refrigerant that changes from a liquid to gaseous state in the evaporator. The evaporation process extracts heat from the interior of the cooling unit, causing the temperature to drop. The compressor draws in the refrigerant, compresses it and passes it on to the condenser. From here, the absorbed heat is released into the atmosphere. The refrigerant liquefies and flows back to the evaporator, where the cycle begins again. The result of this is an excellent cooling performance, capable of deep-freezing, even at extreme ambient temperatures.

High-tech cooler for universal use

The Dometic CoolFreeze CFX 35W is a powerful cooler for refrigeration or freezing. With its high-performance compressor technology and extra thick insulation, this cooler is impressively quiet and efficient while being able to withstand the most demanding of loads thanks to its robust design. On top of all this, the CFX 35W is remarkably lightweight and easy to transport.

Product features:

Frequency (Hz): 50 / 60

Voltage (V): 100-120 / 200-240

Length (mm): 629

Width (mm): 398

Height (mm): 411

Dry weight (Kg): 17.5

Feed Type: 12 / 24 V - 100-240 V

Product type: Compressor refrigerator

Colour: Grey

Capacity of the refrigerator (L): 32

Freezer (L): 0-32

Climate class: N,T

Energy class: A++

Coolant: R134A
