

DOMETIC COOLFUN SC 38 Portable thermoelectric cooler

Product description:

The SC Series is a range of high-performance thermoelectric coolers that includes a cable compartment in the lid. The sturdy carrying handle also serves as a lid support to prevent an accidental opening of the box. The coolers provide cooling up to 18°C below the ambient temperature, while some models can also keep food warm if required.

This quality thermoelectric cooler is Ideal for car journeys, camping, picnics or even in the office. Portable, cool convenience!

Whatever you need, wherever you need it!

The Dometic CoolFun SC 38 offers cooling and heating convenience whether you're at work or at the beach! With cooling up to 18 °C below ambient temperature, it will also warm contents up to +65 °C. The USB port in the lid is handy for charging mobile devices. Using high-performing thermoelectric cooling technology, this unit is very competitively priced. With wheels and a telescopic handle, portability is easy. Wherever you are, you can rely on the SC 38 for cold drinks or a warm lunch!
