

Water Heater RA-1001

230V 1000W

Product price:

158.00 € tax excluded

Product description:

Water Heater for Generators RA-1001

Heaters Water 1000W RA-1001 that prevent the temperature of the cooling circuit of the generators from falling below a certain value, which can be adjusted by the thermostat inside the RA-1001 generator heater.

The RA-1001 water heater is made of a solid cataphoresis coated aluminum body which makes it resistant to the chemical components of the coolant. The water circulation, is done with the principle of thermosiphon. Equipped with ½"BSP hole connection.

The fixing of the heater can be done directly, without the need for a bracket.

The heater for generators has a drain plug for the coolant and a standard 3-meter long power cord.

The heater RA-1001 is coated with cataphoresis, this special coating allows to have a high resistance to the aggressiveness of glycol.

The heater has an excellent dielectric rigidity, and is equipped with connections facilitated by the presence of a cable.

The maintenance of temperature by internal thermostat of the heater, in addition is set up by a second thermostat that protects the apparatus from any phenomena of overheating. Suitable to be mounted directly on the engine.

TECHNICAL CHARACTERISTICS WATER HEATER RA-1001

Power supply voltage: 230 Vac

Power supply frequency: 50 - 60 Hz

Dielectric strength between terminal and container: 1250V x 1 minute

Power consumption: 1000W
Service: Continuous
Operating thermostat: NOT adjustable
Disconnects the heating: at $53^{\circ}\text{C} \pm 5\%$
Inserts the heating at $33^{\circ}\text{C} \pm 5\%$
Safety thermostat tripping temperature: $96^{\circ}\text{C} \pm 5\%$
Cable connection: FROR 450 / 750 V
Protection class: IP54
Temperature limits: $-20^{\circ}\text{ C} \div 120^{\circ}\text{ C}$
Width: 180 mm
Length: 92 mm
Height: 224 mm
Weight: 1.270 Kg

Are you looking for a heater for generators with different characteristics? [Here](#) you can find the full range of heaters.

Images and technical data are not binding and may be subject to revision by the supplier.

Product features:

Phase: Single phase
Frequency (Hz): 50
Voltage (V): 230
Single-phase power (KW): 1
Power (W): 1000
Length (mm): 80
Width (mm): 70
Height (mm): 220
Weight (Kg): 1
