# DOMETIC COOLFUNK 40D HYBRID Portable hybrid cooler and freezer

Product price:

**282.00 € tax excluded**

## Product description:

A multi-purpose fridge and freezer, this hybrid compressor cooler is highly efficient and provides excellent performance.

## Room to cool

Vertical space for 1.5 and 2 l bottles

## At a glance

Easy-to-read digital temperature display while in compressor mode

## Easy to handle

Deep-freeze function can even keep perishable food fresh

## Hybrid cooler and freezer

Are you looking for a highly efficient cooling appliance for the patio, the garden cottage or garage workshop? Ideally, also for the car or recreational vehicle? Then the Dometic CoolFun CK 40D HYBRID is just what you need: two cooling technologies, two connection options and a generous capacity of 38 litres. Powerful compressor cooling on the 230-volt mains, thermoelectric cooling on a 12-volt vehicle battery – this hybrid cooling box can do both. It makes a reliable freezer for perishable deep-frozen food, chills the drinks for your barbeque party, and it will also keep your provisions nicely fresh on the journey to your holiday destination. On top of all this, it looks really stylish with its shapely black / silver housing.

## Getting there is up to you - staying there is up to us!

We are inspired by those who seek freedom of nature! Travelling is the process to get from A to B, but we help people with their Journeys - we want to give you the possibility to go out there and do your bucket list, connect with people and nature, see things and experience more. We don't

just want you to visit amazing places - we want you to stay.

### **The very best of hybrid cooling**

This versatile compression cooler has the ability to both cool and freeze. The Dometic CoolFun CK 40D Hybrid can provide temperatures ranging from 10 °C to –15 °C while operating on AC power, or cool up to 20 °C below the ambient temperature if powered by a 12 V battery. Offering high energy efficiency even at extreme temperatures, it's a great choice if you're looking for a portable 230 V cooler with excellent performance, which can also be operated using a 12 V vehicle battery, when needed. The spacious 38 l capacity will comfortably fit 2 l bottles, while its digital temperature display makes temperature adjustment easy. Seriously cool convenience wherever you need it!

Not binding images and technical data.

### **Product features:**

Voltage (V): 12 - 220-240

Length (mm): 515

Width (mm): 520

Height (mm): 454

Dry weight (Kg): 22

Feed Type: 12 V - 220-240 V

Product type: Cooler refrigerator

Colour: Black

Capacity of the refrigerator (L): 38

Climate class: N,T

Energy class: A+

Coolant: R134A
