Product description:

DOMETIC DS 301H

This Dometic Silencio HC (Health Care) refrigerator is the perfect solution for hospitals and health centres seeking to keep heat-sensitive medicines between +2 °C and +8 °C. Integrated fan for constant temperature and audible warning is available if the door is left open for 20 s

The perfect solution for hospitals and health centers to keep heat sensitive medicines between +2 °C and +8 °C. Integrated fan for constant temperature and audible warning if door left open for 20 s.

Safe, secure and cool

This 27 l miniCool fridge is ideal for storing heat sensitive medicines

Silent absorption refrigerators

Medicines, vaccines, etc. are safely stored in the DS series silent absorption refrigerators. The interior has a constant, even temperature that is monitored by an external thermometer. Practical drawers with high, transparent front provide convenient handling and minimal loss of refrigeration when opening. Quality features: External thermometer with min/max memory, plastic drawers with 1/2 extension and high, transparent front, LED interior lighting, door lock, replaceable door hinge, can be built-in (variable hinge not possible).

Safe and secure

With its reliably constant temperature courtesy of an integrated fan, the Dometic DS 301H is the ideal solution for hospitals and health centres wishing to store heat sensitive medicines. Contents are cooled to between +2 °C and +8 °C. An audible warning will be triggered if the door is left open for more than 20 seconds. The miniCool DS 301H has a door lock for secure storage and drawers with flexible compartments for organised arrangement of medicines.
