Product price:

7,399.52 € tax excluded

Product description:

PRAMAC GA20000 20KVA LPG 17KVA NATURAL GAS

Pramac GA20000 genset powered by LPG or super-silent Natural Gas with automatic control unit.

Live in peace and serenity with Pramac's range of home standby generators powered by Natural Gas and Liquid Propane, with models covering the 8-13 KVA range.

Check the status of your generator at any time, wherever you are, thanks to the new Mobile Link™ mobile phone monitoring system. Your appliances will continue to run even when you are out.

An automatic home standby generator is the ideal solution to protect your home and your family's peace of mind from blackouts, which occur more and more frequently and with unpredictable durations, with devastating effects.

With a genset with automatic Home Standby control unit, as soon as the power goes out, the generator automatically switches on.

The PRAMAC GA20000 gas genset has the optional heater and 45A LTS mains-to-genset switchgear available

The GA series is available in various models to meet the needs of home or business owners and their energy requirements.

Technical characteristics of the PRAMAC GA20000 THREE-PHASE gas genset:

Phase type: three-phase

Maximum rated power ESP (LPG): 20 KVA

Maximum rated power ESP (LPG): 16 KW

Maximum rated power ESP (Natural Gas): 17 KVA

Maximum rated power ESP (Natural Gas): 13.6 KW

Fuel: Natural gas or LPG

Frequency: 50 Hz

Voltage: 400 V

Generator set motor: Generac G-FORCE 1000 SERIES

Engine speed: 3000 rpm

Starter: Electric

Displacement: 999 cc

Cylinders: 2 at V

Generator set cooling: Air

Length: 1232 mm

Width: 648 mm

Height: 733 mm

Weight: 220 kg

Voltage regulation: AVR

Generator set:Supersilenced

Noise Emission Level

Acoustic power (LWA) dBA 95

Acoustic pressure at 7 m dB(A) 65

Quiet-Test Mode dB(A) 59

Free of refuelling needs

Pramac's residential backup generators are connected directly to your power supply. With a GA generator, you no longer have to deal with gas cylinders.

Best-in-class power quality

Thanks to True Power™ technology, this generator set series offers the best power quality on the market, with less than 5% total harmonic distortion to ensure smooth operation of the most sensitive equipment.

Need more power? DISCOVER [HERE](#) all single-phase three-phase super-silent genset options.

Non-binding images and technical data.

Product features:

Phase: Three phase

Maximum power three phase (KW): 16

Maximum power three phase (KVA): 20

Fuel: Natural Gas or LP Gas

Frequency (Hz): 50

Voltage (V): 400

Emissions Regulations: Stationary Use

Engine rpm (rpm): 3000

Speed governor: Electronic

Starting system: Elettrico

Engine capacity (cm³): 999

Number cylinders: 2

Cylinders' position: V to 90°

Oil capacity (L): 1.8

Cooling: Air

Stand By Power [Liquid Propane] (KVA): 20

Stand By Power [Liquid Propane] (KW): 16

Stand By Power [Natural Gas] (KVA): 17

Stand By Power [Natural Gas] (KW): 13.6

Poles: 2

Acoustic power: 95 dB(A)

Acoustic pressure: 65 dB(A) at 7 m

Quiet-Test Mode: 59 dB(A)
