

# MECC ALTE ECP34-1L/4 C-TYPE THREE PHASE ALTERNATOR 150 KVA AVR

## Product description:

### MECC ALTE ECP34-1L/4 C-TYPE ALTERNATOR

The ECP34 C-Type range has many product features designed into the alternator. Type C alternators make the most of power conversion to produce the maximum power to size ratio.

C-Type is now one of the easiest alternators to assemble, integrate, configure and maintain with OEM equipment.

Our goal was to provide maximum power from the smallest, lightest and most durable alternators, and the MECC ALTE designers have lavished the C-Type with much more flexibility.

The entire series is built to the most common specifications such as CEI 2-3, IEC 34-1, EN 60034-1, VDE 0530, BS 4999-5000, CAN/CSA-C22.2 No14-95- No100-95.

Images and technical data are not binding.

## Product features:

Phase: Single phase / Three phase

Maximum power single phase (KW): 90

Continuous power single phase (KW): 83

Maximum power single phase (KVA): 90

Continuous power single phase (KVA): 83

Maximum power three phase (KW): 132

Continuous power three phase (KW): 120

Maximum power three phase (KVA): 165

Continuous power three phase (KVA): 150

Frequency (Hz): 50 / 60

Voltage (V): 230 / 400  
Engine rpm (rpm): 1500 / 1800  
Poles: 4  
Single-phase power (KVA): 90  
Three-phase power (KVA): 165  
Efficiency (%): 92.9  
Protection degree: IP23  
Acoustic pressure: 65 dB(A) at 7 m  
Brushes: No  
PMG: No  
Type of alternator: Constant Speed  
Voltage regulator: AVR  
Weight (Kg): 423
