

CGM SUPER POWER 4500IE GENERATOR SINGLEPHASE 4,5KVA

Product price:

1,515.46 € tax excluded

Product description:

CGM SUPERPOWER 4500IE GENERATOR SINGLEPHASE 4,5KVA 4KW SILENCED INVERTER WITH ELECTRIC START

Generator Singlephase 4,5KVA 4KW **CGM SUPERPOWER 4500IE** Silenced with Electric Starter and inverter è technology; with gasoline engine from; with engine produced in Italy and guaranteed in all the way, the Generator Singlephase 4,5KVA è ideal for both professional and hobbyist use.

The strengths of the Generator Singlephase 4,5KVA are: the inverter technology that allows you to reduce consumption and noise as well as offering a high level of functionality, lightness only 58kg weight, compactness Length: 595 mm Width: 450 mm Height: 510 mm, ease of use and modern design. The CGM SUPERPOWER 4500IE è equipped with an electric starter very easy to start and mounts a 4-stroke motor specifically designed for the single Generator Singlephase 4,5KVA to optimize performance, consumption only 1.8 Lt/h in small size.

The CGM SUPERPOWER 4500IE è was developed specifically for camping, caravans, homes, and hobby applications, but also for work being very robust and handy, being able to use all its power with [technology reversesr](#).

The CGM SUPERPOWER 4500IE

CGM SUPERPOWER 4500IE è a product that respects a high quality standard and guarantees a high level of reliability. For this reason the Generator Singlephase 4,5KVA è able to ensure 12 months warranty and availability of spare parts worldwide.

The strengths of the Generator Singlephase 4,5KVA are: the high quality of components, lightness, compactness, ease of use and modern design.

This range of Generator Singlephase 4,5KVA; specially developed for camping, caravans, home use, hobby: easy to use and reliable.

The advantages of Inverter technolog

The RPM of these CGM SUPERPOWER 4500IE è variable.

When the genset is started the engine idles, as soon as more electricity is drawn at a certain point, automatically the engine will accelerate to cover the required electricity consumption.

This leads to a significant reduction in fuel consumption! In addition, all CGMs with inverter technology also have the AVR automatic voltage regulator.

Technical Features of the CGM SUPERPOWER 4500IE

Maximum Power Single-phase: 4KW

Maximum Power Single-phase: 4.5KVA

Fuel: Gasoline

Voltage: 230V

Frequency: 50Hz

Avitation: Manual / Electric

Consumption: 1. 8 Lt/h

Length: 595 mm

Width: 450 mm

Height: 510 mm

Weight: 58 Kg

Super silenced

Inverter

If you want a Generator with moreù power you can see the following models always of the same [Silenced Ranges](#).

Images and technical data not binding.

Product features:

Phase: Single phase

Maximum power single phase (KW): 4

Maximum power single phase (KVA): 4.5

Fuel: Gasoline

Frequency (Hz): 50

Voltage (V): 230

Sockets configuration: 2 Schuko

Engine: CGM, 4 stroke

Emissions Regulations: Stationary Use

Engine rpm (rpm): 3000

Starting system: Manual / Electric

Number cylinders: 1

Fuel tank capacity (L): 13

Consumption (L/h): 1.8

Running time (h): 7.22

Acoustic pressure: 58 dB(A) at 7 m

Length (mm): 595

Width (mm): 450

Height (mm): 510

Dry weight (Kg): 58

Silenced: Yes

Super silenced: Yes

Product type: Generator

ATS Switch device : No

Voltage regulator: Inverter

Engine manufacturer: CGM
