Product description:

GENMAC ROYAL G250CS-E3

The GENMAC ROYAL G250CS-E3 is a 200 KVA super-silenced single-phase/three-phase diesel generator with Mecc Alte alternator and AVR voltage regulator.

Thanks to its diesel fuel supply, the GENMAC ROYAL G250CS-E3 can only consume 5.9 m³/h at full load and has a low environmental impact, making it one of the best in its class.

The long life and reliability of the GENMAC ROYAL G250CS-E3 is due to a special control procedure during the various stages of production.

The GENMAC ROYAL G250CS-E3 is suitable for applications in different contexts such as: hospitals, industries, shopping malls, hotels, airports, banks, universities, stadiums, offices, etc.

The Stage 3A engine allows the use of the generator set also for mobile use, for example for roadworks and rental services.
