Product description:

GENMAC QUEEN G100JS-E3

The GENMAC QUEEN G100JS-E3 is a 98 KVA super-silenced single-phase/three-phase diesel generator with Stamford alternator and AVR voltage regulator.

Thanks to its diesel fuel supply, the GENMAC QUEEN G100JS-E3 can only consume 2.49 m³/h at full load and has a low environmental impact, making it one of the best in its class.

The long life and reliability of the GENMAC QUEEN G100JS-E3 is due to a special control procedure during the various stages of production.

The GENMAC QUEEN G100JS-E3 is suitable for applications in different contexts such as: hospitals, industries, shopping malls, hotels, airports, banks, universities, stadiums, offices, etc.
