Product description:

GENMAC QUEEN G120JS-E3

The GENMAC QUEEN G120JS-E3 is a 121 KVA super-silenced single-phase/three-phase diesel generator with Stamford alternator and AVR voltage regulator.

Thanks to its diesel fuel supply, the GENMAC QUEEN G120JS-E3 can only consume 2.9 m³/h at full load and has a low environmental impact, making it one of the best in its class.

The long life and reliability of the GENMAC QUEEN G120JS-E3 is due to a special control procedure during the various stages of production.

The GENMAC QUEEN G120JS-E3 is suitable for applications in different contexts such as: hospitals, industries, shopping malls, hotels, airports, banks, universities, stadiums, offices, etc.

The Stage 3A engine allows the use of the generator set also for mobile use, for example for roadworks and rental services.
