

SCANGRIP NOVA 10 SPS

- 10000 lumen light LED

Product description:

NOVA 10 SPS (SCANGRIP POWER SOLUTION)

SCANGRIP is proud to present the next generation NOVA range - the world's most powerful and sturdy work lights with the new innovative SPS battery system providing extremely high illumination output and outstanding flexibility.

The SCANGRIP NOVA 10 SPS features the latest COB LED technology providing 10,000 lumen making it a universal all-round work light for the demanding professional user.

The extreme sturdiness of the SCANGRIP NOVA 10 SPS makes it endure even the most challenging and demanding working environment, as it is made of diecasted aluminum and completely dust and waterproof, IP67.

The design is elegant, with a carrying handle and a stand for flexible positioning and direct mounting on the SCANGRIP TRIPOD. Moreover, the lamp is supplied with a built-in power bank with USB outlet that enables you to charge mobile devices on the go.

SPS SCANGRIP POWER SOLUTION

The new SCANGRIP POWER SOLUTION provides you with unlimited availability to illumination. Easily you can insert a new, fully charged battery and continue the work while another battery is charging. Or you can simply add the charger directly to the lamp to get power supply. The integrated battery backup function prevents you from being without light at any time.

BLUETOOTH light control

With the integrated BLUETOOTH light control you get an extraordinary possibility to turn on/off up to four work light and adjust its output into five different levels to suit the work task in question through your mobile device. This new feature saves time from manual operation and increases work efficiency on a daily basis.

Download light control app:

// App Store - iOS

// Google Play - Android

The process to delete the pin code is:

- Turn on the Bluetooth function
- Press the Bluetooth button for 10 second
- The pin code is reset

// The design of the SCANGRIP NOVA 10 SPS is unique and covered by EU design patent RCD No 5597010.
