Product description:

EMILSPRAYER 110 sanitizer tank

EMILSPRAYER 110 sanitizer tank perfect for spraying pesticides for agriculture and products for sanitizing and sanitizing. The EMILSPRAYER 110 sanitizer tank has a capacity of 110 litres with a flow rate of 8.3 litres/minute. The EMILSPRAYER 110 tank is small and handy as it weighs only 12 Kg. Easy to transport the EMILSPRAYER 110 hygienizer tank is suitable to be taken where you need it most.

The EMILSPRAYER 110 sanitizer tank is extremely versatile and has a wide range of applications:

- Professional cleaning and disinfection, using detergents, chemicals and germicidal liquids.
- Gardening and agriculture, in greenhouses and nurseries, using phytosanitary products, herbicides and for pest control

The EMILSPRAYER 110 tank is made of a polymer that is resistant to chemicals and UV rays; in addition, the wall thickness and the targeted design prevent deformation of the product over time and in use. The EMILSPRAYER 110 tank is equipped with a diaphragm pump with continuous duty cycle and valves made of Viton® resistant to chemicals. The integrated pressure switch activates the pump only during the product delivery phase, reducing wear and increasing efficiency. The lance ensures precise delivery by acting on the adjustable nozzle, which allows you to spray a single jet or atomise the product.

The main technical features of the EMILSPRAYER 110 tank are:

- Capacity: 110 litres
- Dimensions: 440x460xh1100 mm
- Weight: 12 Kg
- Electric diaphragm pump 12V, flow rate 8,3 litres/minute, max pressure 4,8 bar
- Continuous duty cycle, Honeywell MICRO SWITCH™ pressure switch
- Santoprene™ membrane and Viton® valves resistant to chemicals

- 4.5 meters of pipe
- Aluminium dispensing lance with gun. Range 9m horizontally + 6m vertically
- Electrical cable and pliers for connection to the power battery and switch.
