Product description:

Ride-on Lawnmower HONDA HF 2625 HTE

HONDA HF 2625 HTE designed and engineered with a new type of GXV690 engine even more docile, fluid that makes this lawn tractor easy to drive. Beautifully finished, HONDA HF 2625 HTE is built to give you a beautiful lawn for every occasion. This sturdy mower is perfect for mowing & trimming large lawns & gardens. HONDA HF 2625 HTE offers precise mowing with 122 cm blades, hydrostatic control and a 350 litre grass catcher bag. HONDA HF 2625 HTE lawn mower is equipped with a one-touch electric grass catcher bag discharge system.

Performance so enjoyable you won't want to stop

HONDA HF 2625 HTE lawn mower does everything possible to meet your needs because we know that mowing lawn is not a job, it's a passion. HONDA HF 2625 HTE lawn mower is robustly built with durability and strength in mind. Together with hydrostatically controlled transmissions for smooth & precise control, you'll care for your garden in easiest and most pleasant way.

Maximum control

Comfort is at your fingertips on HONDA HF 2625 HTE with new ergonomically designed steering wheel. HONDA HF 2625 HTE mower also features a steering knob that allows you to quickly turn the steering wheel to operate & manoeuvre near trees & bushes.

Stay charged

Does your phone need charging? No problem when working with a HONDA HF 2625 HTE lawn mower. Just plug it in and place device in the convenient holder to charge it while you take care of your lawn.

First class comfort

Particular care & attention to detail has been paid to design of seat, which is now most comfortable ever. The material is durable & soft to touch & this new design features folding armrests which further increases the comfort level of HONDA HF 2625 HTE.

A secure pocket

Practicality is one of the strengths of HONDA HF 2625 HTE. This simple & practical accessory allows you to keep your mobile phone always at hand and avoid risk of it accidentally falling while you are working.

Fluid performance

Optiflow® is the unique airflow management system created by HONDA that offers superior collection performance with no more clogging of the collection duct. Versamow® is also present, a system that allows selective mulching. It allows mulching while mowing the grass, helping to create a natural fertilizer for a healthier lawn.

Lightening the load

The mower has an electronically operated collection bag that automatically releases the cut grass at once. Thus, you no longer need to move from driver's seat to empty the collection bag.

Built to last

Anti-corrosion paint adds an elegant finish to the sturdy steel cutting deck to give HONDA HF 2625 HTE a more pleasant appearance for longer.
