Product description:

HONDA UM616EBE2 LAWNMOWER

HONDA UM616EBE2 lawnmower with petrol engine, professional, self-propelled with hydrostatic transmission with 61 cm blades, hand brakes and Roto-stop®. HONDA UM616EBE2 is designed for most difficult areas such as fields and roadside verges.

Floating front wheels, hydrostatic control & blade stop control make work easier and increase safety. Designed for cutting tall grass, HONDA UM616EBE2 mower is ideal tool for maintenance of demanding parks and gardens.

Operation is extremely intuitive, with a foot control that allows you to choose between 4 mower cutting height settings. Use the foot control to adjust cutting height according to the length of grass and desired finish.

Reinforced cutting deck

The large cutting plates are made of pressed steel. Strong, lightweight and impact resistant, they have been treated to prevent rust, UV abrasion and corrosion. Simply put, HONDA UM616EBE2 is an incredibly robust machine.

Professional engines for professional operators

Engine of HONDA UM616EBE2 lawnmower has high-level features, including cast iron cylinder liners & high capacity air filters, making it ideal for professional use.

Roto-stop®

Roto-stop® allows you to stop the blades quickly & safely without turning off the motor. This feature is ideal if you want to remove debris or stop the blades in an emergency.

Hydrostatic control

This feature ensures that the blades rotate at a constant speed, regardless of the speed at which HONDA UM616 EBE2 mower moves. Rotation of blades at a constant speed ensures an even cut.
