

RENTAL LUXTOWER LUX B10M

Product description:

Light Tower Rental in Italy: LUXTOWER B10M

Light Tower Rental offers a convenient solution for renting the LUXTOWER B10M light tower, an innovative and eco-friendly lighting solution designed for various applications.

Features and Specifications:

- **Integrated Battery Pack:** The B10M is powered by an integrated battery pack, making it self-sufficient and eliminating the need for external power sources.
- **LED Floodlights:** Equipped with four powerful 90W LED floodlights, the Light Tower Rental ensures bright and efficient illumination, even in challenging conditions.
- **Galvanized Vertical Telescopic Mast:** The durable galvanized vertical telescopic mast provides stability and easy setup.
- **Manual Lifting System:** The light tower comes with a user-friendly manual lifting system, making it accessible for any work site.
- **Silent Operation:** With its silent operation, the Light Tower is the ideal choice for work sites in city centers or locations where noise pollution is a concern.
- **Autonomy:** The B10M version offers an impressive 36 hours of continuous lighting, while the LUX B11M version extends this autonomy to 72 hours, ensuring uninterrupted work.
- **Zero Fuel Consumption:** LUXTOWER's innovative battery-powered technology eliminates the need for fuel, reducing operating costs and minimizing environmental impact.

Please note that LUXTOWER B10M is available exclusively for rentals within Italy.
