Product description:

CLIMMA CWS251 AQUACONTROL CHILLER NAUTICAL AIR CONDITIONER 27500 BTU/h

Climma CWS251 Aquacontrol is a Chiller marine air conditioner suitable for use on boats, for air conditioning or heating up to a maximum capacity of 27500 BTU/h.

The Climma CWS251251 Aquacontrol is a chilled water marine air conditioning system designed to provide thermal comfort and energy efficiency on board vessels of different sizes. The Climma CWS251 Aquacontrol uses chilled water technology to cool the air inside the boat.

It features an energy-efficient compressor, which reduces energy consumption and contributes to longer battery life. This results in reduced operating costs and lower emission of harmful gases into the marine environment. One of the strengths of the Climma CWS251 Aquacontrol is its versatility. It can be configured to operate in single-phase or three-phase mode, offering installation flexibility.

The Climma CWS251 Aquacontrol's advanced control system allows it to set the desired temperature and monitor chiller performance. With its intuitive control panel, settings can be easily and precisely adjusted. In addition, the system can be integrated with a remote control (Optional), allowing easy access to control functions even from a distance.

The Climma CWS251 Aquacontrol is designed for easy installation and maintenance. Its compact size and modular design allow for easy integration on board the boat. It also features easily accessible and replaceable filters, which ensure high indoor air quality and reduce the accumulation of dust and impurities.

TECHNICAL FEATURES CLIMMA CWS251 AQUACONTROL

Cooling rated capacity: 25000 BTU/h / 7500 W
Nominal heating capacity: 27500 BTU/h / 8000 W
Power supply: 230 / 400 V
Frequency: 50 / 60 Hz
Operating current consumption: 9.2 - 10.9 A
Minimum cold water flow rate: 22 l/min
Minimum seawater flow rate: 22 l/min
Max. permissible ambient temperature: 45 °C
Cooling system: Compressor
Electric Panel Dimensions (WxDxH): 243 x 208 x 60
Chiller Dimensions (WxDxH): 340 x 340 x 460
Total net weight: 52.4 kg

Looking for a product with different technical characteristics? [HERE](#) you can find the area dedicated to WEBASTO nautical air conditioners or other specialized brands.

Product features:

Phase: Single phase / Three phase
Frequency (Hz): 50
Voltage (V): 230 / 400
Refrigerating yield: 20000 BTU/h
Heating power: 27500 BTU/h
Length (mm): 340
Width (mm): 340
Height (mm): 460
Dry weight (Kg): 52.4
Product type: Chiller
Sea water flow (Lt/min): 22
Fresh water flow (Lt/min): 22
