Product description:

IDROMAR WATERMAKER MC4J

Watermaker Idromar MC4J, part of the MINI COMPACT series, is an excellent Watermaker with an hourly production of fresh water at 25°C of 210 liters/hour and a daily production at 25°C of 5000 liters/day.

The Watermaker Idromar MC4J is built and designed with high quality components with a practical operation.

With a fresh water production that ranges from 65 to 210 liters/hour, the Watermaker of the MINI COMPACT series are the Idromar solution for small to medium sized boats (from 15 to 25 meters), where intensive and continuous use is not always necessary.

The Watermaker of this range, like the Idromar MC4J, are compact, in a decomposable version and share functionality, practicality and homogeneity of materials. One of the main features that the Idromar MC4J Watermaker shares with those in its range is the use of 316L stainless steel: from small details such as screws, bolts and nuts, the entire frame, the vessels that contain the membranes and the high pressure pump head are made of stainless steel to eliminate the phenomenon of corrosion.

The Idromar MC4J Watermaker provides a practical and reliable source of fresh water for boaters with high supply requirements. The Idromar MC4J Watermaker offers you absolute water independence for various diversions such as extended voyages, ocean crossings or fishing.
