Product description:

IDROMAR WATERMAKER MC4V

Watermaker Idromar MC4V part of the MINI COMPACT series is an excellent Watermaker with an hourly production of fresh water at 25°C of 210 liters/hour and a daily production at 25°C of 5000 liters/day.

The Watermaker Idromar MC4V is designed and manufactured with high quality components with a simple operation.

With a fresh water production ranging from 65 to 210 liters/hour, the Watermaker of the MINI COMPACT series are Idromar's solution for medium-small boats (15 to 25 meters), where intensive and continuous use is not always necessary. The Watermaker in this range, such as the Idromar MC4V, are compact, in a decomposable version, and share the same functionality, practicality and uniformity of materials.

One of the main features that the Idromar MC4V Watermaker has in common with those in its range is the use of 316L stainless steel: from small details such as screws, bolts and nuts, the entire frame, the vessels that contain the membranes and the high pressure pump head are made of stainless steel to eliminate the phenomenon of corrosion.

The Idromar MC4V Watermaker provides a practical and reliable source of fresh water for boaters with high supply requirements. The Watermaker Idromar MC4V offers you absolute independence from water for various diversions such as prolonged voyages, ocean crossings or fishing.

The continuous market demand has made the realization of the Watermaker strive with the design and development of the new Mini Compact Junior vertical version, same technical features, same ease of use but with an important difference in the measures.

Technical characteristics of the Watermaker Idromar MC4V:

Hourly production at 25°C: 210 Lt/h

Daily production at 25°C: 5000 Lt/day
Produced water salinity: 300/400 PPM
Absorbed power: 1.5 KW
Length: 350 mm
Width: 350 mm
Height: 700 mm
Weight: 125 Kgg

Hydraulic connections

Sea suction: 1/2"
Caskets suction: 1/2"
Exhaust: 3/8"
Outflow: 3/8"

Product features:

Power (W): 1500
Length (mm): 350
Width (mm): 350
Height (mm): 700
Feed Type: 230 V
Production for hour at 25°C (Lt/h): 210
Daily production at 25°C (Lt/day): 5000
Salinity of water produced (PPM): 300/400
Capacity (Lt/h): 210
Remote panel: Digital
Weight (Kg): 125
