Product description:

IDROMAR WATERMAKER MC5S

Watermaker Idromar MC5S part of the MINI COMPACT series is an excellent Watermaker with an hourly production of fresh water at 25 ° C equal to 250 liters / hour and a daily production at 25 ° C equal to 5000 liters / day.

The 4 models of the series Senior as the Watermaker Idromar MC5S, while maintaining small size and low power consumption, are the immediate response to a request for machines increasingly reliable, simple and able to work at high rates.

Always decomposable into several parts for easy maintenance and completely adaptable to the available space, the Watermaker of the series Senior as the Idromar MC5S, as for the Junior series, are equipped with a complete and readable instrumentation and at the same time extremely functional equipped with alarm devices that intervene even in case of false operation.

The Watermaker Idromar MC5S provides a practical and reliable source of fresh water to boaters with high supply requirements. The Idromar MC5S Watermaker offers you absolute water independence for various diversions such as extended voyages, ocean crossings or fishing. The Idromar MC5S Watermaker systems are small and efficient able to fit into the tightest of spaces thanks to their complete decomposability.

Technical features of the Watermaker Idromar MC5S:

Hourly production at 25°C: 250 Lt/h

Daily production at 25°C: 5000 Lt/day

Produced water salinity: 300/400 PPM

Power input: 4 KW

Length: 925 mm

Width: 610 mm

Height: 550 mm

Weight: 130 Kg

Hydraulic connections

Sea suction: 3/4"

Box suction: 3/4"

Exhaust: 1/2"

Production: 1/2"

Product features:

Power (W): 4000

Length (mm): 925

Width (mm): 610

Height (mm): 550

Feed Type: 230 V

Production for hour at 25°C (Lt/h): 250

Daily production at 25°C (Lt/day): 5000

Salinity of water produced (PPM): 300/400

Capacity (Lt/h): 250

Remote panel: Digital

Weight (Kg): 130
