Product description:

WEBASTO Cool Top Trail 34 air conditioner

The WEBASTO Cool Top Trail 34 air conditioner is a single-phase 230 V model with 3400 W cooling power and 3000 W heating power and is suitable for use in campers and caravans parked over 8 meters long. The WEBASTO Cool Top Trail 34 air conditioner is lightweight, compact and easy to install inside small vehicles. The WEBASTO Cool Top Trail 34 air conditioner is also robust and quiet so you can enjoy your trip to the fullest.

Thanks to its generous heat exchanger, the WEBASTO Cool Top Trail 34 air conditioner is characterized by high efficiency and high performance. The reliability and high cooling capacity of the WEBASTO Cool Top Trail 34 have been tested under extreme conditions at temperatures up to 50 °C. Units such as the WEBASTO Cool Top Trail 34 air conditioner are equipped with a very powerful heat pump as standard, also operating at outside temperatures down to -5 °C.

The very low noise levels of the WEBASTO Cool Top Trail 34 air conditioner allow you to rest and relax inside the vehicle and not to disturb the neighbours on the campsite. The use of high quality components guarantees a long life with minimal maintenance costs. Made of UV stabilized polypropylene, the drive housing is robust but lightweight.

The units can be operated with an easy-to-use remote control that allows the user to access all air conditioning functions from the comfort of the dining area, seat or bed.

In addition to cooling and heating, the units include various extra functions such as dehumidification, timer and sleep function. Cool Top Trail air conditioners are supplied with a 400 x 400 mm roof opening mounting frame.

For use in openings smaller than 360 x 360 mm an alternative adapter frame is available as an accessory.
