### **EGM RP10000-SE THREEPHASE GENERATOR 8KW**

The generator EGM RP10000-SE threephase is equipped with a gasoline engine capable of delivering 8KW power with optional AVR voltage regulator.

The RP10000-SE threephase EGM generator provides reliable power for home, work and leisure environments Safe powering of home appliances and other electronic devices Outdoor party solution.

The generator is easy to install and operate, as simple as starting and stopping with clear and intuitive controls (Manual / Elettric start) Auto power off for low oil level Durable chassis.

The 8KW threephase generator is equipped with bolted, heavy duty wheels and hinged handle make it a robust and easy to transport. The recessed sockets with snap-on safety covers make it more secure.

The generator has a practical double-curved handle, which can be folded down for easy mobility and storage. EGM RP10000-SE has an all-steel construction and a large metal tank with fill indicator. The generator guarantees an efficient and silent operation thanks to the OHV engine that allows to deliver a maximum power of 8KW.

The AVR is indispensable to make the generator work at its best, it all needs an electronic control system, an AVR, which guarantees the good functioning of the machine and of the electrical network behind it.
