EGM ISB3500-SE SINGLEPHASE GENERATOR 3,8KW

The generator EGM ISB3500-SE singlephase is equipped with a gasoline engine capable of delivering 3,8KW power with optional AVR voltage regulator.

The ISB3500-SE singlephase EGM generator provides reliable power for home, work and leisure environments Safe powering of home appliances and other electronic devices Outdoor party solution.

The generator is easy to install and operate, as simple as starting and stopping with clear and intuitive controls (Manual start) Auto power off for low oil level Durable chassis.

The 3,8KW singlephase generator is equipped with bolted, heavy duty wheels and hinged handle make it a robust and easy to transport. The recessed sockets with snap-on safety covers make it more secure.

The generator has a practical double-curved handle, which can be folded down for easy mobility and storage. EGM ISB3500-SE has an all-steel construction and a large metal tank with fill indicator. The generator guarantees an efficient and silent operation thanks to the OHV engine that allows to deliver a maximum power of 3,8KW.

The Inverter voltage regulator is essential to make the generator work at its best, in fact it needs an electronic control system, an Inverter in fact, which ensures the proper functioning of the machine and the electrical network underlying it.
