Product description:

ASTURO K300S 0,75KW AIRLESS ELECTRIC AIRLESS MEMBRANE PUMP

Pump Asturo K300S airless electric diaphragm with electric motor with a power of 0,75KW ideal for do-it-yourself work of not excessive severity.

The airless pump uses materials such as paints and enamels with a maximum viscosity of 100 DIN-S. The pump is made of plastic, with internal stainless steel details, making it easy to transport thanks to its low weight of 5kg.

Intuitive use of the discharge valve, the product does not need much maintenance thanks to its compactness. It mounts a 230V electric motor that generates a power of 0,75KW, allowing a free delivery of 1.4 lt/min.

Integrated in the pump with 0,75KW power there is a suction and recirculation system. The Asturo K300S airless pump is complete with a sanitization kit for environments consisting of 7.5 m long 1/4" high pressure hose and 1/4" fitting. K90 gun with 1/4" fitting with maximum pressure of 207 bar. MKII speedy self-cleaner with SPxx nozzle, high spray gun, max 250 bar. Includes spray nozzle (mod SFC 13 60) and 1/4" swivel fitting to connect to the hose.

Sanitizing spray nozzle. Included in the gun and lances PLA is a sprayer for sanitizing agents suitable for use in hazardous and heavy duty environments; exceptional in fighting pathogens such as bacteria, mold and viruses. The airless pump is suitable for medium-large environments, such as offices, industrial sheds, schools, tensile structures, common areas of condominiums, buses, vans, trucks, small and medium boats.

TECHNICAL FEATURES OF THE ELECTRIC AIRLESS DIAPHRAGM AIRLESS PUMP ASTURO K300S

Free delivery: 2.8 l/min

Motor Voltage: 230 V
Motor frequency: 50Hz
Power: 0,75KW
Maximum nozzle size: 7 - 18 inch
Max pressure: 200 bar
maximum high pressure hose length: 20 m
Length: 800 mm
Width: 490 mm
Height: 230 mm
Weight: 26Kg
