### MOSCATELLI E-VAN S120 SOLAR PANEL 120W

MOSCATELLI E-VAN S120 120W is a solar panel designed to be used for Ducato VAN, in order to give the maximum yield with the use of as little space as possible.

With a maximum power of 120W, the new MOSCATELLI E-VAN S120 module proposed in size 136 X 50 CM solves many drawbacks that usually afflict fixed-mount solar panels installed on recreational vehicles, in particular the problem of encumbrance and the problem, very important on a means of transport, of weight.

MOSCATELLI E-VAN S120 also, compared to traditional models is a module consisting of monocrystalline silicon solar cells, which makes them more efficient, compact and durable than polycrystalline models. This unit has been designed to be applied on your Duchy without occupying the entire roof of the vehicle, leaving space for the windows positioned on it.

The high mechanical resistance allows the MOSCATELLI E-VAN 120W module not to be affected by jolts and vibrations, the supply is completed by the fixing kit for a practical use. The panel has an exclusive design that allows the installation without fear of wind resistance.

Thanks to this set of peculiarities the new MOSCATELLI E-VAN 120W photovoltaic modules guarantee a long life in full efficiency. the MOSCATELLI photovoltaic panel is complete with a 6 meter cable and supports.
