Product description:

HONDA HSS970A EWD SNOWBLOWER 6.3 kW

Honda HSS970AEWD snowblowers to clear up to 52 tons of snow per hour and battle against 55 inches of snow, capable of delivering 6.3KW of power. Honda's state-of-the-art HSS970AEWD are at the forefront of shoveling. All 9 series models have electric ejection tube control (joystick). These models can clear snow in an area equivalent to two tennis courts with a depth of 30 cm in 9 minutes.

The Honda HSS970AEWD snowblowers are lightweight and powerful, thanks to 'electric start the use of this machine is very simple. Turn the key and the machine will start immediately. A 12-volt battery ensures that the machine starts where you want it to. The wheels on the Honda HSS970AEWD offer optimal traction in most snow conditions, making this snowblower ideal for rough terrain and gravel paths.

All Honda HSS970AEWD snowblowers are equipped with an electronically controlled exhaust chimney to make it easy to eject snow in any desired direction, ideally as far away as possible.

Throwing snow a distance of 16 feet takes a lot of effort and would take many people equipped with shovels to do all the work; again, the Honda HSS970AEWD snowblower with GX270T2 4-stroke engine will get the job done in no time. This engine is as reliable as it is powerful and is designed to produce low noise, vibration and emissions, while also ensuring low fuel consumption. And it has no problems with cold starting either.

A single cubic metre of compacted snow can weigh up to 100kg and, before you know it, the snow can quickly accumulate and put a strain on the structure. Melting ice also poses problems. In this case, it is leaks and standing water on the roof that can damage the property. To avoid problems for buildings with flat roofs, Honda snowplow owners take their Honda snowblowers to the roof of their homes, where once again these snowblowers shine in terms of grip and maneuverability.

This snowblower features a unique hour meter function, which tells you when the next service is due and when routine maintenance should be performed.

HONDA HSS970AEWD TECHNICAL SPECIFICATIONS

Net power: 6.3 kW

Fuel: Gasoline

Engine: Honda GX 270 T2

Starting system (AMP): Electric / Manual recoil starter

Working width: 710 mm

Working height: 550 mm

Maximum capacity: 52 t/h

Maximum jet distance: 16 m

Jet direction adjustment: 2-stage electric

Transmission: Hydrostatic

Traction type: Wheeled

Consumption: 2.2 Lt/h

Acoustic power: 102 dB(A)

Length: 1485 mm

Width: 775 mm

Height: 1230 mm

Weight: 110 Kg

Speed (km/h): 5.04

Are you looking for a snowplow with different characteristics? [HERE](#) you can find the whole range of Honda products and other specialized brands.

Product features:

Fuel: Gasoline

Engine: Honda GX270 T2, 4 stroke, OHV

Engine rpm (rpm): 3600

Ignition: Recoil

Starting system: Manual / Electric

Working width (mm): 710

Working height (mm): 550

Capacidad máxima (t/h): 52

Speed (Km/h): 5.04

Throwing distance (m): 16

Discharge chute adjustment: 2 power stages

Transmission: Hydrostatics
Screw height adjustment: Lever height adjustment of the cochlea
Net power (kW): 6.3
Fuel tank capacity (L): 5
Consumption (L/h): 2.27
Running time (h): 2.2
Acoustic power: 102 dB(A)
Length (mm): 1485
Width (mm): 775
Height (mm): 1230
Dry weight (Kg): 110
Traction type: Wheels
Engine manufacturer: Honda
