

TANK DTO 10 - GE 950 LITERS

Product description:

TANK DTO10-GE 950L

Tank DTO10-GE with a nominal capacity of 950l prepared for connection to generators or heating systems with M.I. homologation.

The DTO10-GE tank is equipped with a rectangular-shaped metal containment basin, made of carbon steel sheet, equipped with upper reinforcing edging, lifting eyebolts, grounding connections, reinforced bottom suitable for positioning the tank when fully loaded, bottom outlet with cap. Prepared for roof installation. The capacity of the containment tank is 110% of the capacity of the tank to avoid that in emergency situations or sudden breakage, the liquid is dispersed into the environment.

The 950L DTO10-GE tank is made of S 235 JR carbon steel sheet and is equipped with support saddles with anti-roll feet.

TECHNICAL FEATURES DTO10-GE TANK

Capacity: 950L

Tank diameter: 900 mm

Tank height: 1730 mm

Tank length: 1500 mm

Tank width: 2200 mm

Tank height: 335 mm

Homologation: M.I.

Tank material: carbon steel sheet S 235 JR

Manhole: Ø 420 mm

Load: 3" brass M.I. approved

Level indicator: pneumatic with signal dial

Load limiting valve at 90% MI approved

1" MI approved flame cutter vent

Product features:

Fluid type: Diesel

Main body material: Acciaio al Carbonio S235JR

Fuel tank capacity (L): 950

Length (mm): 1650

Width (mm): 3000

Height (mm): 2500

Product type: Tank
