

TOWING TROLLEY GRILLO6

Product description:

TROLLEY TOWING GRILLO6 V GALVANIZED FRAME

TROLLEY TOWING Grillo6 is equipped with a capacity of 3320 X 1850 X 100 mm with galvanized frame allows the loading of goods and materials.

The trolley towing comes in the FLAT version with a 10 cm high containment edge on the sides and front. To further increase the load capacity it is possible the optional supply of side rails easy to apply and use, to allow you the maximum safety.

The trolley towing Grillo6 does not require a ramp as it has a low edge that allows the easy loading of small vehicles. If the vehicle to be loaded is very low, such as a lawn mower, in this case to facilitate the loading it is possible to supply the optional rear ramp/ramp, which is easy to use and operate.

The trolley Grillo6 does not require a ramp.

The platform is covered with phenolic marine plywood with non-slip for safe loading of your vehicles and equipment. The sturdy frame is hot-dip galvanized with a V-shaped drawbar. The Axle with torsion bar suspension, with independent wheels, with the very good 13" wheels outside the platform.

The trolley towing GRILLO6 is complete with autonomous braking system, complete with rear lights with integrated reverse light and all the features for a correct urban and extra-urban transport.
