## Product description:

### BERTOLI 15CAR33T PTO GENERATOR

Generator cardan Threephase BERTOLI 15CAR33T capable of delivering a power of 30 KVA with tractor connection of 1500 rpm.

The cardan generator BERTOLI 15CAR33T has a voltage of 400 V and a frequency of 50 Hz. The cardan generator BERTOLI 15CAR33T is equipped with a MECC ALTE alternator complete with AVR voltage regulator. The AVR regulator allows to stabilize the voltage and avoid damage to the connected sensitive devices.

The BERTOLI 15CAR33T generator is very reliable as it has been built and designed using high quality materials.

Gimbal generator easy to transport, install and position thanks to its compact size.

These compact gensets, robust and easy to use, are complete with a base with 3-point linkage for a secure attachment to any tractor, in addition, the model BERTOLI is equipped with a transport trolley as standard.

The transmission of power is via the universal joint (not included), connected to the genset multiplier.

The generating sets for tractor attachment are mainly designed for farms, ranches, livestock farms and alpine pastures but they can easily adapt to any emergency situation.
