### **FINI MK103-90V-3M COMPRESSOR**

Finis MK103-90V-3M is a compressor with a capacity of 90 l that can deliver a maximum pressure of 10 bar by means of an MK103 pump with a power of 3 Hp.

Finis MK103-90V-3M is equipped with front control systems to make it more convenient to use even in tight spaces. The controls are practical and easy to understand, suitable for both professionals and beginners.

The Finis MK103-90V-3M compressor combines a powerful and reliable electric motor with a large air reserve, this makes this compressor suitable for all pneumatic accessories that require medium to high air consumption.

Finis MK103-90V-3M is equipped with large anti-vibration feet for added stability during operation.

Finis compressor is an efficient way to solve the problem of noise in working environments, these compressors are very quiet and have a sound emission level of 94dB at a distance of 7m. The combination of high quality materials and the highest accuracy in the assembly of the machine ensure quietness, excellent performance and long life.

The fundamental characteristic of the FINI MK103-90V-3M is its vertical conformation, in this way, the compressor has a reduced overall volume and can be used by anyone who has space problems.
