Product description:

GMP B2ZPM MOTORPUMP 17.5kW

GMP B2ZPM is a self-priming motorpump equipped with a powerful KOHLER KDW 1404 engine with Diesel power supply, capable of delivering a power of 17.5 KW.

GMP B2ZPM is made for drainage and any other more demanding application in construction sites and in the industrial and emergency sectors.

Pumping of the most abrasive fluids with high passage of solids is ensured by the robustness of the hydraulic system and the unique impeller, type with open blades and double curvature.

The GMP B2ZPM motor pump has a **maximum flow rate of 825 liters per minute** this makes it incredibly efficient given its small and manageable size.

The **self-priming** is the ability to suck the air contained in the suction line during the start-up phase of the motorpump.

TECHNICAL CHARACTERISTICS GMP B2ZPM

MotorPump Type: Self-priming

Battery Group: 12 V 45 Ah

Fuel Tank: 15 l

Motor Model: KOHLER KDW 1404

Motor Power: Diesel

Motor Speed: 3000 rpm

Pump Model: B2ZPM

Maximum Suction Height: 5. 2 mt.

Power: 17.5 KW

Maximum flow rate: 50 m³/h - 825 Lt./min

Diameter: 2"

Transportability: Static (trolley optional)

Width: 655 mm

Length: 640 mm

Height: 900 mm

Looking for a motorpump with different characteristics? Here you can find the full range of GMP or other brands specialized in this field.

Images and technical data are not binding and may be subject to revision by the supplier.

Product features:

Fuel: Diesel

Engine: KOHLER KDW 1404

Engine rpm (rpm): 3000

Starting system: Electric

Power (KW): 17.5

Net power (kW): 17

Pump type: Self-Priming Simple Effect

Fluid type: Waste waters

Maximum output capacity (Lt/min): 825

Diameter (Ø): 2"

Maximum height (m): 5.2

Maximum flow (m³/h): 50

Inlet diameter thread type (mm/inches): 80 mm - 3"

Outlet diameter thread type (mm/inches): 50 mm - 2"

Debris size capacity (mm): 38

Fuel tank capacity (L): 15

Length (mm): 655

Width (mm): 640

Height (mm): 900

Engine manufacturer: Kohler
