Product description:

FINI PULSAR EVO BK120-10-SD PUMPING GROUP 10HP

FINI PULSAR EVO BK120-10-SD is a silenced pumping group that can deliver a maximum pressure of 10 bar by means of a BK120 pump with a power of 7.5KW.

FINI PULSAR EVO BK120-10-SD have been designed to solve the problem of noise in working environments, they stand out on the market for the lowest noise level in their category. The pumping unit is the heart of a piston compressor and for this reason Fini pumping units are designed and manufactured to guarantee high performance, efficiency and reliability over time.

The durability and efficiency of the pumping unit is largely determined by the number of revolutions per minute of the head. The lower the number of revolutions, the longer the life of the compressor will be. The multiplication of the number of revolutions is obtained through pulleys of different diameters applied to the motor and the head respectively.

The induction motor of the FINI PULSAR EVO BK120-10-SD is characterized by its extremely long life and low maintenance requirements. In fact, this motor is brushless, the main component subject to wear.

The motor of the FINI PULSAR EVO is covered with sound-absorbing panels that reduce the noise level, allowing the use of the compressor also in difficult rooms.

TECHNICAL FEATURES FINI PULSAR EVO BK120-10-SD

Voltage: 400 V

Frequency: 50 Hz
Pump: BK120
RPM: 1100 RPM
Power: 7.5 KW - 10 HP
Air output: 1080 Lt/min - 38. 1 cfm
Pressure: 10 bar - 145 psi
BSP: 2'
Acoustic pressure: 64 dB(A)
Length: 1290 mm
Width: 980 mm
Height: 1060 mm
Weight: 226 Kg

Product features:

Frequency (Hz): 50
Voltage (V): 400
Engine rpm (rpm): 1100
Power (KW): 7.5
Pressure (bars): 10
Air output (L/min): 1080
Mechanical power (hp): 10
Acoustic pressure: 64 dB(A)
Length (mm): 1290
Width (mm): 980
Height (mm): 1060
Dry weight (Kg): 226
