Product description:

PG20V BATTERY-POWERED GREASE GUN 2 Ah

The PG20V is a 2 Ah Lithium-Ion battery-operated grease gun with a multi-function LCD displaying real-time information for correct application control.

The PG20V 2 Ah grease gun has the possibility to select two working modes:

- Low flow rate
- High flow rate

This PG20V gun can have up to 700 bar (10,000 psi) maximum pressure (limited to 500 bar - 7,250 psi by safety valve) and up to 40 grease cartridges per refill (refer to product specification).

The PG20V 2 Ah features an optimised electric motor with a robust and ergonomic design.

The PG20V's screen changes colour to indicate any abnormalities, such as pump blockage or problems with the grease supply.

All models such as the PG20V include battery, charger, carrying case and electric gun with hose and nozzle.

Main technical characteristics of the 2 Ah PG20V pistol:

Lithium-ION battery voltage: 20 V

Battery capacity: 2.0 Ah

Battery charger: 240 - 220 V / 50 - 60 Hz

Maximum pressure: 700 bar (10,000 psi)

Maximum pressure safety valve: 500 bar (7,250 psi)

High mode flow rate (H): 160 g/min (5.7 oz/min)

Low mode flow rate (L): 100 g/min (3.6 oz/min)

Grease cartridges per battery charge: 24 (2 Ah version) - 40 (4 Ah version)

Display functions: Battery level, amount of grease, malfunction alarm, alarm for lack of material

Units of measurement: Grams, ounces

Led light: Yes, with on/off button

Tube with grease nozzle: 1,100 mm (44")

Shoulder strap for carrying case: Included

Gun weight: 3.2 kg (7 lb)
