

OFF BY INDEL B PLEIN-AIRCON AIR CONDITIONER 12V

Product price:

1.583,00 € tax excluded

Product description:

OFF BY INDEL B PLEIN-AIRCON 12V AIR CONDITIONER

The conditioner OFF BY INDEL B Plein-Aircon is the first 12V air conditioner for motorhomes, vans and semi-integrated vehicles. It is powered by the auxiliary battery only, without installing inverters or generators.

Wherever you are, enjoy the break without sacrificing the comfort of an ideal indoor temperature on hot summer nights. OFF BY INDEL B Plein-Aircon 12V conditioner is the rooftop conditioning system that celebrates the most authentic spirit of traveling in complete freedom and in contact with nature. It cools and dehumidifies the cell of campers, vans and motorhomes up to 6 meters without the need for connection to 220V power sources or auxiliary generators.

OFF BY INDEL B Plein-Aircon 12V conditioner is designed for roof-top installation at the bed area to improve comfort when stopping and resting at night, or to maintain the ideal temperature while driving and ensure optimal cold distribution. Compared to 220V-powered solutions Plein-Aircon 12V eliminates the need to install an inverter or auxiliary combustion generator, significantly reduces energy consumption and dissipation, and eliminates CO2 emissions during layover.

Technical features of the air conditioner OFF BY INDEL B PLEIN-AIRCON

Compressor: Single direct-current compressor

Input voltage: 12V DC (115V-230V optional smart switch power supply)

Refrigerant gas: R134A

Cooling capacity: 1200 Watts (max)

12v power consumption: 16 amp/h (auto) - 42 amp/h (max)

Number of air intakes: 2 (front/rear)

Number of fan speeds: 3 + auto

Airflow: 350m3/h

Remote control: Yes

Timer: Yes
Battery protection: Yes
Starting current: Very low starting current
Soft Start function: Yes
Best for vehicle length: Max 6m vehicles
Interior interchangeable filters: Yes
Test marks: E-mark / EMC
Eco-sustainable system: No generator needed
Outdoor unit dimensions (HxWxD): 246x720x800 mm
Evaporator unit dimensions (HxWxD): 50x533x600 mm
Roof cutout dimensions (WxWxD): 400x400 mm
Roof thickness: 30-70 mm
Weight: 25.3 kg

Product features:

Voltage (V): 12
Refrigerating yield: 1200 Watt
Ventilation speeds: 3 + AUTO
Absorbed average current, refrigerating (A): 12V: 16 amp/h (auto) - 42 amp/h (max)
Inlet power, refrigerating (KW): 1.2
Maximum air flow rate (m³/h): 350
Length (mm): 800
Width (mm): 720
Height (mm): 246
Type of climate control: Roof Air Conditioner
Recommended vehicle length (m): 3
Product type: Air conditioner
Weight (Kg): 25.3
