

GENERAC ATB-N1 ANTI-THEFT BOX 600 L

Product description:

GENERAC ATB-N1 ANTI-THEFT BOX 600 L

The GENERAC ATB-N1 anti-theft box is ideal for all those who need to always have their tools at hand and keep them safe at the same time.

The GENERAC ATB-N1 is equipped with an upper door with a pneumatic system that makes it easy to open and prevents accidental closure, thus avoiding possible injuries. The GENERAC ATB-N1 is compact but extremely capacious, thanks to its 600 l internal volume.

The structure of the body is made of 2mm-thick sheet metal, then painted with oven-baked polyurethane powder paint.

The security system with double lock does not allow the opening of the box in any way if not cutting in two the entire box.

The GENERAC ATB-N1 cannot be broken into in any way due to the lack of external padlocks and the impossibility of passing a crowbar through the slots of the chest.

The structure of the work crate is equipped with lifting pockets and a raised surface that allows it to be both nimbly forked by a transpallet or forklift and lifted by means of a crane, allowing you to easily transport all your equipment.
