Product description:

GENERAC DF MINI DUST FIGHTER

GENERAC Dust Fighter DF MINI is a portable dust suppression system capable of spraying water mist up to 8 meters, perfect for indoor jobs such as demolition and renovation.

GENERAC DF MINI has the purpose to solve in the most efficient way the problem of the abatement of the volatile dusts in all the environments where it is necessary to contain the emission of dust in the atmosphere.

Thanks to the nebulization system the dust particles bind to the water particles and end up on the ground. In addition, the nebulization method allows you to completely cover the dust cloud saving you large amounts of water.

GENERAC MINI comes complete with:

- 70 liter stainless steel water tank
- 3 types of interchangeable nozzles for different coverage
- Wheels and handles for transportation
- High pressure pump
- Liquid level indicator
- Foldable for easy transport
- Manually adjustable nozzle spray angle

TECHNICAL CHARACTERISTICS GENERAC DF MINI

Pump: 230V - 50 Hz - 2,6 A Kw 0,55 - 100 bar

Spray angle of the nozzles: From 80° to 150°

Inclinable head: High 25° - Low 15°

High: Distance 8mt
Duration 1 h 20 min.
Coverage 83 mq
Medi: Distance 7mt
Duration 2 h 25 min.
Coverage 64 mq
Low: Distance 5mt
Duration 5 h - 18 min.
Coverage 33 mq

Tank capacity: 70 l
Width: 710 mm
Length: 600
Height: 1.300/2.150 mm
Dry weight: 70 Kg
